ABOUT ME

I started dancing around the age of 17. After starting with breakdance I got into different urban styles such as waving, popping, housedance etc. Today I try to use as much of those techniques as possible in my choreographies and classes. As a teacher I try to focus on educating dancers instead of just teaching

steps or a choreography. Learn them techniques, basics and foundations. Learn them how to move even when they're not given any steps and so become a unique dancer themselves.
